

Water Weekly

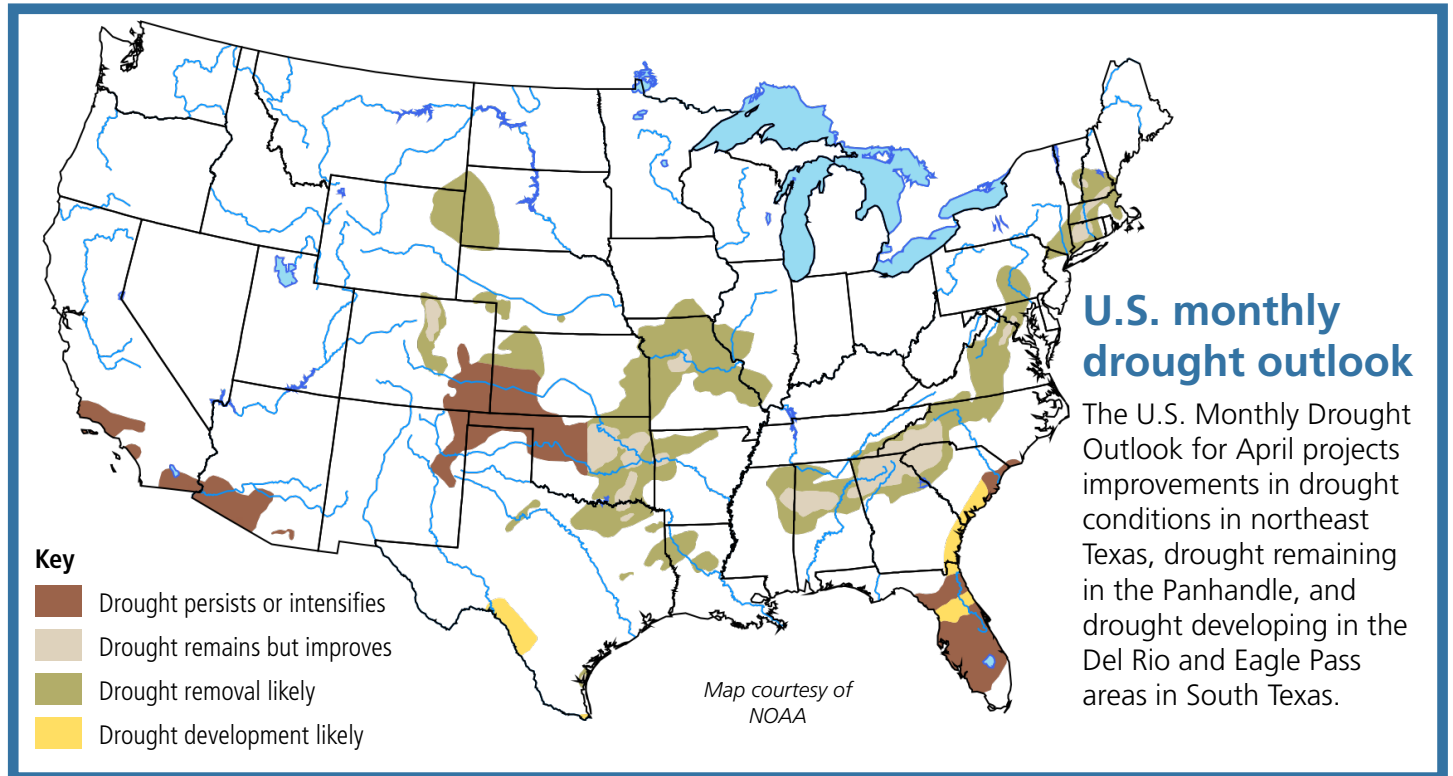

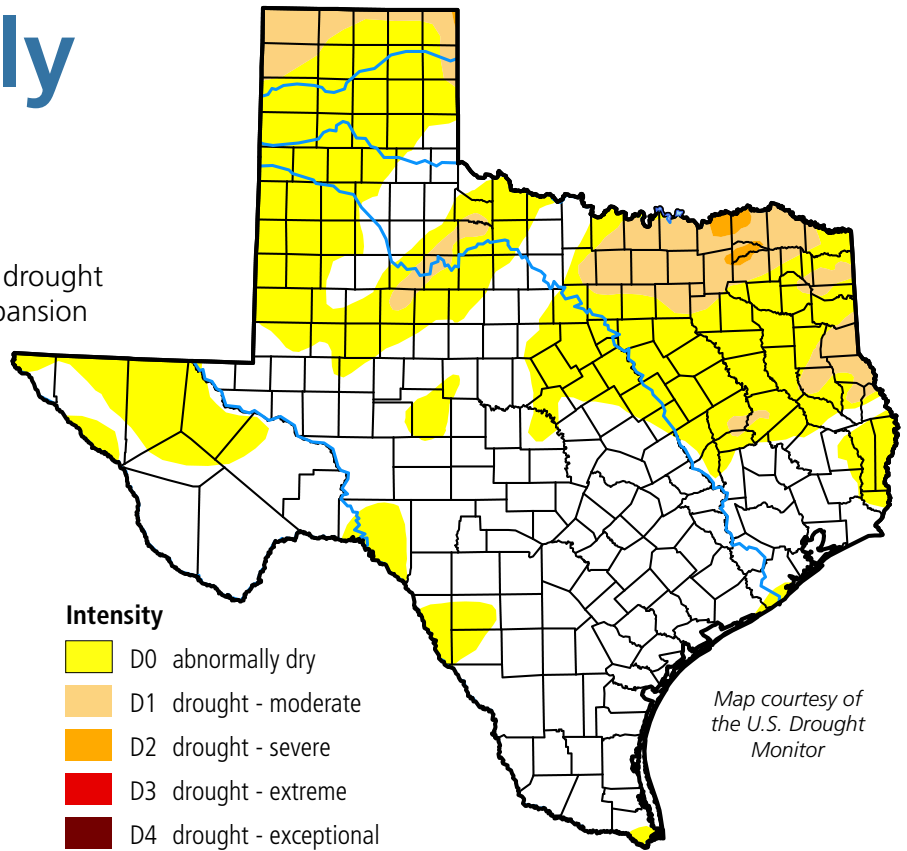

For the week of 04/03/17

Water conditions

Last week saw some minor improvements in drought conditions in northeast Texas and a slight expansion of abnormally dry conditions in West Texas south of Lubbock. Rains over the past weekend will probably lead to more improvements in future drought maps but not enough to completely dampen drought conditions.

Drought conditions

- ◆ 9% now
- ◆ 9% a week ago
- ◆ 7% three months ago
- ◆ 3% a year ago
