

Water Weekly

For the week of 07/27/20

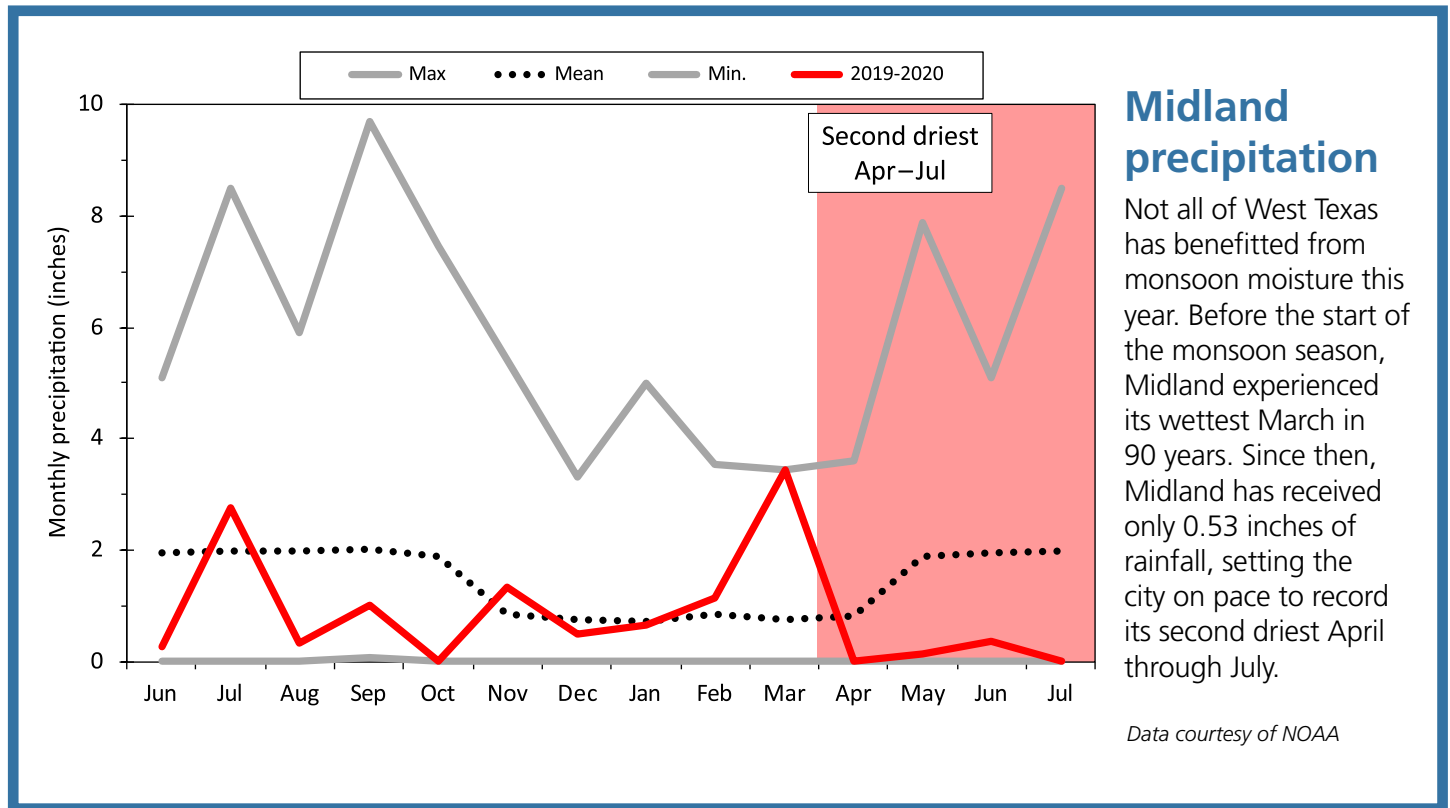

Water conditions

Thanks to monsoon flow from the Pacific, the latest drought map for conditions as of July 21 shows two categories of improvement for some areas in the northern tip of the Panhandle. Because of Hurricane Hanna, we can expect similar improvements for South Texas in next week's drought map.

Drought conditions

- ◆ 36% now
- ◆ 32% a week ago
- ◆ 16% three months ago
- ◆ 2% a year ago
