

DROUGHT CONDITIONS

Statewide reservoir storage is up for the fourth straight week, and the seasonal drought outlook through June now projects substantial improvements in drought conditions in Texas. However, most reservoirs west of I-35 and in south Texas have not benefited from recent rains, and drought is still expected to persist in the Hill Country and north central Texas.

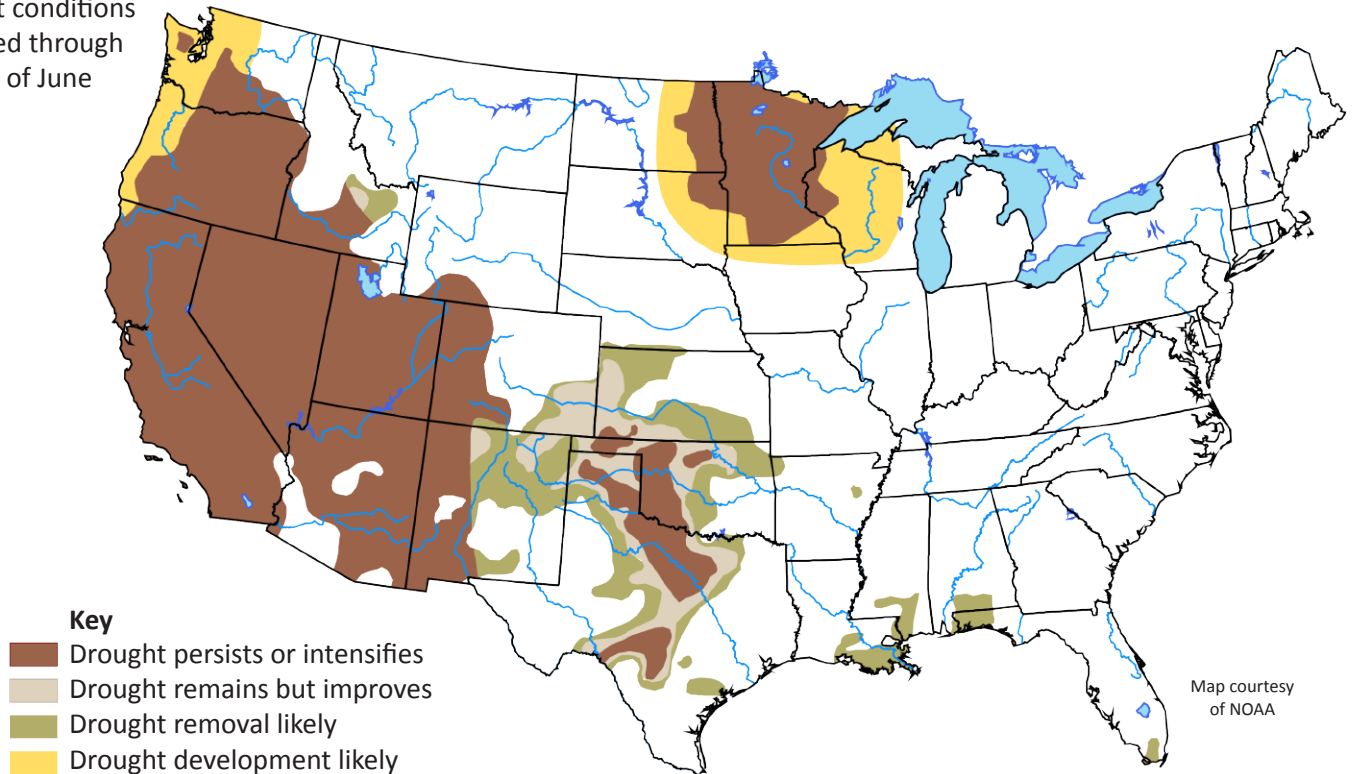

Drought statistics

- 40% of state currently in moderate to exceptional drought
- 41% a week ago
- 44% three months ago
- 64% a year ago

U.S. SEASONAL DROUGHT OUTLOOK
