

DROUGHT CONDITIONS

It was nice to have some rain last week, but there wasn't enough to significantly change our water deficits: As of noon last Friday, statewide reservoir levels were only up 100,000 acre-feet (about 0.3 percentage points) from the previous week. Nevertheless, we'll take all the rain we can get!

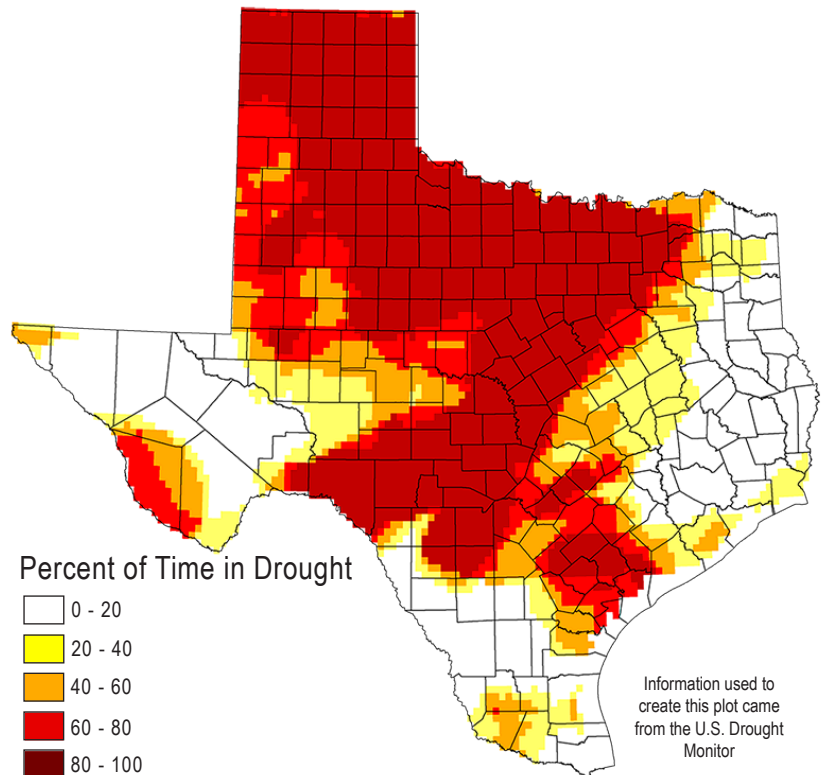

Drought statistics

- 41% of state currently in moderate to exceptional drought
- 40% a week ago
- 49% three months ago
- 46% a year ago

DROUGHT IMPACT

This map shows the percent of time any area of the state was in moderate or worse drought in 2014.
