

# Water Weekly

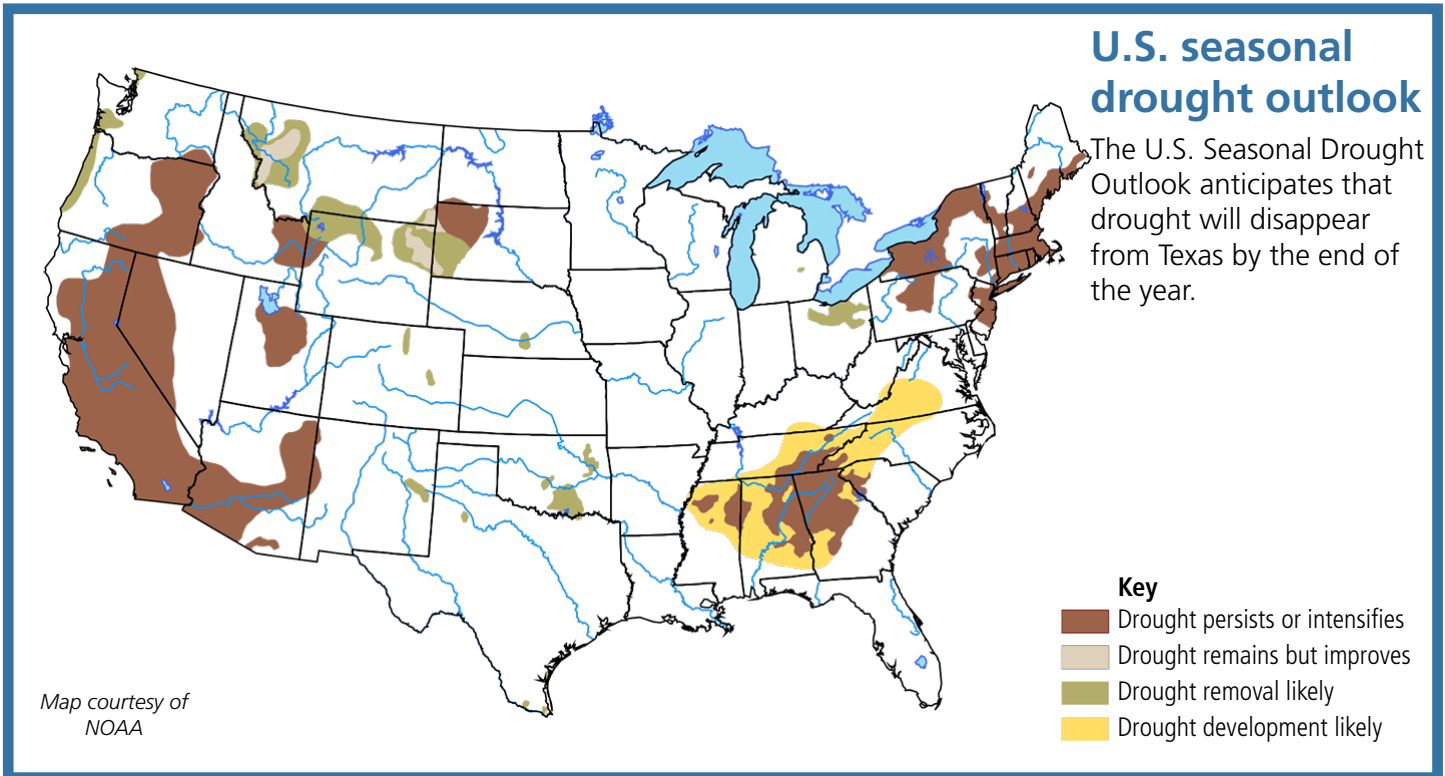

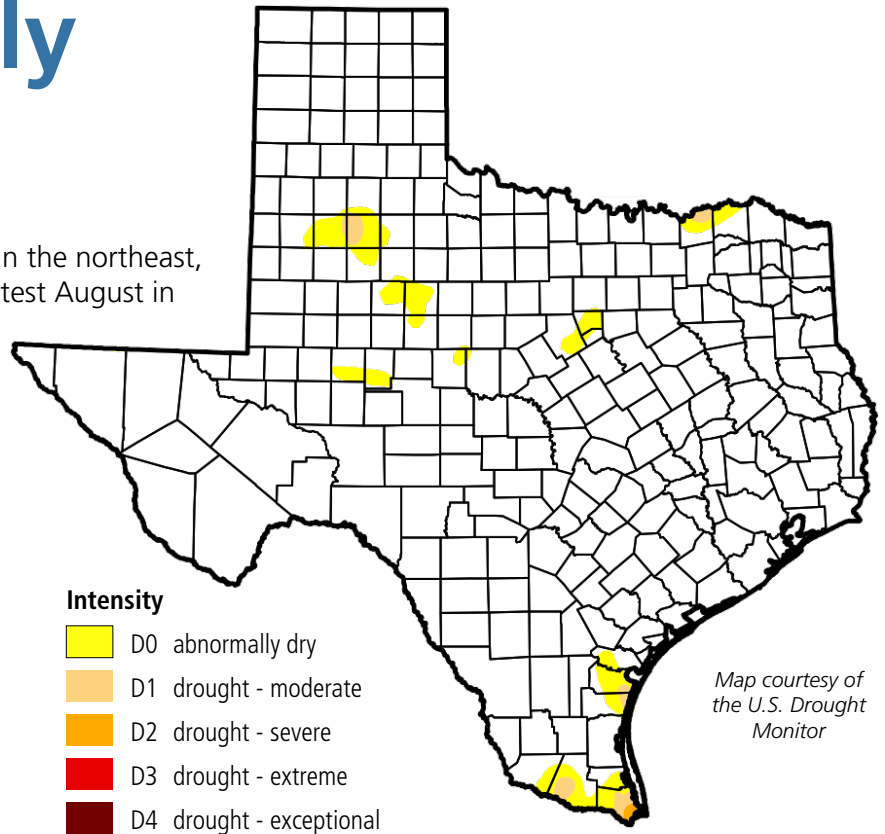

For the week of 09/19/16

## Water conditions

Drought weakened in the west, held steady in the northeast, but strengthened in the south. After the wettest August in more than 100 years, September has been unusually dry for the eastern half of the state. At present, less than 1 percent of the state remains in drought.

## Drought conditions

- ◆ 0.7% now
- ◆ 0.6% a week ago
- ◆ 0% three months ago
- ◆ 27% a year ago
